Unit Managers Meeting
4843 ALKALI METAL STORAGE FACILITY
740 STVCN, RM 2200
Richland, Washington

Meeting Held October 12, 1993
From 1:00 pm to 3:00 pm

Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The September 8, 1993 meeting minutes were reviewed and approved.

2. Status Action Items

- 7-14-93:1 Pending; awaiting removal of waste from 4843 AMSF and scheduling of the survey.
- 7-14-93:2 Pending; awaiting removal of waste from 4843 AMSF and scheduling of the survey. The delays had been caused by difficulties in determining the long-term storage requirements for alkali metal waste at the Central Waste Complex. These concerns have been resolved and the waste disposal documentation is being prepared.

3. Status Closure Activities

- Status of NOD comments

WHC (J. G. Adler) stated that work on replying to the Ecology NODs is continuing.

4. New Business

- Funding for 4843

Ecology (A. D. Huckaby) raised the subject of funding for the 4843 AMSF. Is there sufficient funding to cover closure. RL (R. N. Krekel) stated that sufficient funding is available to cover the cost associated with taking the 4843 AMSF to clean closure.

- Schedule for 4843 AMSF DQO process

Ecology (A. D. Huckaby) raised the subject of when the Data Quality Objective (DQO) process would be held for the 4843 AMSF. WHC (F. A. Ruck) stated that the DQO process would be scheduled sometime in the November 1993, December 1993 or January 1994 timeframe.

- Document Revision

Ecology (A. D. Huckaby) asked about what occurs if it is time to revise the closure plan but there are still unresolved issues outstanding. WHC (F. A. Ruck) outlined the three options available. The first is to revise the closure plan and to continue working on resolving the outstanding issues. The second is to agree among the unit managers that some action or event (e.g., additional time for discussions) is needed to resolve the issues. Normally an exchange of letters would take place to document what was occurring and why. The third is to enter into the issue resolution process outlined in the Tri-party Agreement. It is also possible that the issue resolution process could be invoked as part of the first or second options.

5. Set Next Meeting Date

The next meeting has been set for November 10, 1993, for 10:00 am at Richland, Washington.
